DETAILED ACTION

Response to Amendment

The examiner acknowledges the cancellation of claims 13-21 and the addition of claims 29-35.

Allowable Subject Matter

Claims 1-2, 4-12, 22-26, and 28-35 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is believed to be allowable as a laser driver having the stated cascoded output switch, predriver, a resistor providing tail current to the cascoded devices and coupled with a feedback modulation control of the predriver, a common mode feedback circuit, and a cascode biasing circuit responsive to a power supply voltage, output bias, and modulation current, was not found to be taught in the prior art, or an obvious combination of the prior art. The examiner agrees with the applicant's arguments (see Remarks, 05/22/2006) that the stated tail current providing resistor of Tan is not clearly coupled to the feedback portion of the circuit. In addition, the examiner also agrees with the applicant that the common mode feedback circuit of Schuelke is not of the cascade circuit type. This differing diode driving type is not found to be an obvious combination with the cascade type circuit of Tan. Other prior art references such as Fischer (US 2003/0091077) taught similar circuit types but lacked essential elements such as common mode feedback as well as a tail current providing resistor.

Claims 2, and 4-12 are allowable as they depend from allowable claim 1.

Claims 22-26 and 28 are allowable for the reasons indicated in the previous office actions.

New claims 29 and 32 are allowable as they largely comprise the same limitations of claim 1, and in addition contain previously indicated allowable subject matter pertaining to a pulldown variance circuit.

Claims 30-31 and 33-35 are allowable as they depend from allowable claims 29 and 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
